

## STAGELAND....

The program at the Lyric theatre for the week end patrons beginning tonight is one of the best this popular house has ever shown. There are 1,000 feet of the best releases to be seen anywhere beginning with Pathe's weekly budget of current events which includes launching of Italian battleship "Count De Cavour," at Sped, Italy, views in Melbourne, Australia, Milan, Italy, Denver, Colo., Washington, D. C., blasting out 50,000 tons of rock at one time at Allentown, Pa., using 10,100 pounds of explosive in 17 holes, each 115 feet deep, late Paris styles in ladies' tailored suits and gowns, and other views. These pictures are attracting more attention throughout the country than any other pictures made. There are so few of them released the theatres in all the western cities are bidding for them and to come close to home, in Salt Lake and Ogden picture patrons are seeking them in preference to other pictures on the program.

Other pictures in this excellent program at the Lyric is the "Lure of the City," a story of a country boy who has been lured to the city by some "Get Rich Quick" advertising, but who is brought to his senses and home by the love of a pure innocent girl. Then there is a rip roaring comedy, "An Innocent Burglar," that will keep you in good spirits the whole evening. The feature for the program is the Biograph production "The Trail of Books" featuring the smallest, the sweetest and the best child actress ever seen in motion pictures or anywhere else. This is a story of how a reconciliation was brought about between husband and wife. This is undoubtedly one of the very best feature pictures ever produced by the Biograph company. This picture was shown in the Oracle theatre in Ogden for one full week to packed houses nightly, many coming the second time to see this one picture alone.

The Lyric theatre is now running four full reels of licensed pictures, the best pictures made in the world and with excellent music, the brightest, clearest and steadiest picture to be seen in the city the management assures you an evening of pleasant entertainment.

Our house is warm and comfortable, courteous treatment to all, and a pleasant hour assured to all for 10 cents. Saturday matinee—Children 5 cents.

## ANNUAL REPORT OF HORTICULTURAL INSPECTOR

The following is the annual report

of the Horticultural Inspector of Cache County:

Hon. County Commissioners: Gentlemen:—I, the undersigned, respectfully submit my report for the year ending Dec. 31st, 1911:

An approximate estimate of nursery stock imported and planted in the county, and also fruit produced and reported is as follows: There has been 50,000 trees planted of which the bulk were apple trees. The past year has marked one of the greatest in-

creases in apple production in the history of Cache county, 52 car loads having been exported as compared with 24 for 1910. The price ranging from \$450.00 to \$600.00 per car load. The Cache Fruit Growers' association, packed and shipped all of the above mentioned apples with the exception of ten cars which were bought by Salt Lake commission men. Only eight out of the 42 cars handled by our local firm were marketed on the Utah markets, the bal-

ance going east with the greater portion going to cold storage. There has been several compliments extended by eastern people regarding the excellent quality, pack and grading of our apples. Small fruits were as follows: Strawberries, 2,500 cases, value \$4,575.00; Raspberries, gooseberries and currants, 3,000 cases, value \$4,500. Peaches 2 car loads, \$1,200; Pears, one car load, \$630.00. There were some of our apple growers that thinned their fruit on the trees the

past season and the results obtained from so doing were surprisingly good, the apples netting the growers approximately 20 per cent more profit than the unthinned orchards, and at the same time it is paving the road to our future markets. Pruning also the one great essential in obtaining the fine large well colored fruit which always demands a fair price. The pruning season is at hand, let us start now, and let our slogan

be better and larger apples in 1912. OTTO JENSEN, County Horticultural Inspector.

Where He Was Safe. "So you have adopted a baby to raise?" we asked of our friend. "Well, it may turn out all right, but don't you think you are taking chances?" "Not a chance," he answers. "No matter how many bad traits the child may develop, my wife can't say he inherits any of them from my side of the house."—Life.
